for Humanity®
of Greater Charlottesville

Chief Financial Officer
Charlottesville, VA

INVESTING IN THE POWER OF HOPE

Habitat for Humanity of Greater Charlottesville (Habitat) is a cutting edge, national-leader non-profit housing and community development organization creating simple, decent, affordable homes and neighborhoods in partnership with low-income families, volunteers, and the communities of the Greater Charlottesville region. Home construction capacity is multiplied by a volunteer labor force including homeowner families, corporate, civic, and church groups. Habitat is an affiliate of Habitat for Humanity International (HFHI), a global ministry working to end housing poverty worldwide. Habitat Charlottesville is the most productive affiliate per service area size in the global network. This year, the affiliate is working on a record 63 new homes and 15 rehabs and has an annual budget of just over \$30M.

In 2013, Habitat completed construction at Sunrise, the first trailer park transformation in the nation without resident displacement. Currently, Habitat is in the process of redeveloping without displacement the 130-acre Southwood Mobile Home Park as a mixed-income, mixed-use, sustainable community for current and future residents. Southwood is the area's largest single concentration of affordable housing and one of the nation's most ambitious redevelopment opportunities. When complete, the redeveloped Southwood will be a roughly 1,200 unit mixed-income community with a neighborhood commercial center inclusive of resident-owned businesses. Direct investment in Southwood redevelopment will exceed \$500M. Critically, Habitat has worked with the community for years to prepare residents to take the lead in all elements of planning for redevelopment. For this work, Habitat was honored at the Governor's Housing Conference as the recipient of the Community Engagement and Inclusive Communities award.

In addition to its precedent-setting work in mobile home redevelopment, Habitat is a national pioneer in mixed-income community development. To date, Habitat has built or worked in 13 mixed income neighborhoods and has sold roughly 350 homes.

Habitat's current five-year strategic plan concentrates activities into three areas: Building, Rebuilding, and Housing System Development. This ambitious plan aims to create thousands of local housing opportunities while developing partnerships, policy, and programs to advance the housing sector locally and nationally.

BUILDING

Habitat's primary goal in the first realm is to build and/or renovate and sell 40+ homes each year in the Greater Charlottesville region. In this area, much of the focus is on increasing the capacity of long-time low-income residents to stand on their own. In exchange for Partner Families' "sweat equity," Habitat sells homes at no profit and originates 0% loans so that families earning between 25% and 60% of area's median income can become homeowners.

REBUILDING

In this realm, Habitat is focusing on the holistic transformation of the Southwood Mobile Home Park into a sustainable 1,100+/- unit mixed income, mixed use community anchored by a core, commercial downtown of resident-incubated and owned businesses without resident displacement. Habitat is also strategically investing in affordable homeownership in other key neighborhoods in the region and utilizing home repair as a force multiplier for community improvement.

HOUSING SYSTEM DEVELOPMENT

In addition to building and rebuilding activities, Habitat seeks to change the conditions that contribute to housing poverty by working strategically and in coalitions to catalyze greater sector coordination, advocacy, and marketplace innovation so that everyone in the region can find a pathway to safe, decent, affordable housing.
