

ADVANCED ENERGY UNITED

Policy Director – Decision Maker Education & Engagement – Central

**(Preference for Candidates from the Central region of the United States.
Remote candidates will be considered.)**

EXECUTIVE SEARCH PROFILE

MISSION: TO ACHIEVE 100% CLEAN ENERGY IN AMERICA

OVERVIEW

Advanced Energy United educates, engages, and advocates for policies that allow our member companies to compete to power our economy with 100% clean energy. We work with decision-makers at every level of government as well as regulators of energy markets to achieve this goal. The businesses we represent are lowering consumer costs, creating thousands of new jobs every year, and providing the full range of clean, efficient, and reliable energy and transportation solutions. The U.S. market for advanced energy products and services reached nearly \$375 billion in 2022. Together, we are united in our mission to accelerate the transition to 100% clean energy in the United States.

ADVOCACY & ENGAGEMENT

Advanced Energy United is the only industry association in the U.S. that represents the full range of advanced energy technologies and services, both grid-scale and distributed. Our unique systems approach offers policymakers a path to meeting ambitious policy goals such as 100% clean power and transportation electrification.

THE OPPORTUNITY

Advanced Energy United seeks an experienced, strategic, and innovative **Policy Director** to focus on decision-maker education and engagement in central states (covering the area from the Midwest down through Texas). The Policy Director will work with other United team members to develop and implement educational strategies designed to achieve policy successes at the state level that will expand markets for the advanced energy industry and accelerate the U.S. transition to 100% clean energy.

The ideal candidate will be a motivated, self-starting professional with a background in clean energy policy, state public utility regulation, and state-level advocacy. AEU seeks a great strategic thinker, implementer and manager who will grow with the role and build a team, set a vision and be unafraid to take things to the next level, all the while collaborating with both internal and external stakeholders. Candidates should be creative and flexible but also systems and process-oriented. The successful candidate will have excellent communication and organizational skills and will be someone who thrives in an entrepreneurial environment.

Responsibilities:

- ❖ Work with members and subject matter experts across the organization and externally to design and implement customized educational sessions and forums for public utility commissioners and staff in central states to accelerate the U.S. transition to 100% clean energy.
- ❖ Develop and maintain excellent working relationships with public utility commissioners and staff, as well as Advanced Energy United staff, members, and partners.
- ❖ Travel on an as-needed basis (up to 15%) to targeted states for educational events and other efforts on behalf of Advanced Energy United.
- ❖ Manage/mentor/develop junior staff.

Transforming Policy. Expanding Markets.™

THE CANDIDATE

Required Qualifications

- ❖ Demonstrated success as a strategic implementor.
- ❖ Bachelor's and/or Advanced degree in Political Science, Public Policy, Economics, Law or Engineering preferred, or applicable comparable experience.
- ❖ At least seven (7) years professional experience and engagement in the clean energy sector.
- ❖ Experience engaging with state public utility commissions strongly preferred.
- ❖ Entrepreneurial approach, flexible attitude, and ability to operate independently, making decisions consistent with Advanced Energy United's mission/vision.
- ❖ Handle multiple projects in a fast-paced environment.
- ❖ Experience managing/mentoring junior staff.
- ❖ Ability to engage members, customers, and funders, and sell Advanced Energy United and its value proposition to those audiences.
- ❖ Excellent communication skills, both written and verbal.
- ❖ Intellectual curiosity, inquisitive nature, and excellent listening and problem-solving skills.
- ❖ Strong interpersonal skills required; candidates must successfully develop and maintain genuine and productive relationships with members, industry stakeholders, policymakers, and other key contacts.
- ❖ Performance-oriented individual with a strong work ethic, demonstrated initiative, and commitment to achieving goals.
- ❖ Candidates must be very comfortable working in an environment with remote colleagues, creating new projects, building their calendars, and delivering on high expectations.
- ❖ A deep network of relevant contacts in the energy sector is a plus.

WHY ADVANCED ENERGY UNITED

If you're an entrepreneurial, innovative, analytical and thoughtful person looking to make an impact in the clean energy space, United might be the perfect place for you to share your talents. Team members at United are given the trust and responsibility to make big things happen, and myriad opportunities to learn new skills, explore new issue areas, and work with a broad cross-section of the clean energy community. Being a team member at United also means working with a talented and diverse group of people, some who bring decades of experience spanning advocacy, philanthropy, clean tech, government, and more—and our collaborative approach means we get to learn from each other, expert and novice, every day. And while our organization is fully remote, we are proud of the people-focused culture we have built and the connectedness of our team.
